

MOBILE DENTAL CLINIC PROJECT

Health of the people is the Foundation stone of any Country's economy development and is the distinct key issue concern in public policy discourse in every mature society. Oral health is a vital component of preventive medicine health and which is essential to general health and quality of life across the life span of an individual. But it's often neglected and given low on priority until the suffering is affecting routine work and life.

Hence, there was is an urgent need of providing oral health care services through Government Public machinery Funded ,with a focused Community based outreach Programmes approach which translates into a robust mechanism in the future. resulting in **Mobile Dental Clinic Project under the umbrella of National Health Mission/ and Delhi State Health Mission was initiated on 30th of April 2014. The Program was inaugurated by Honourable Lieutenant Governor Sri. Najeeb Jung along with the other Health Secretary dignitaries on 30th April 2014 .**

It is the first of its kind project in India operational operated and managed by Maulana Azad Institute of Dental Sciences providing preventive, promotive and curative oral health care services in inaccessible and underserved areas of Delhi.

The project aims to achieve the goals of the “*Oral Health for All*” through improved access to Primary Oral Health Services. NHM has emerged as a major financing and health sector reform strategy to strengthen State Oral Health Systems. The project attempts to integrate the existing Health Care delivery services with the dental/ oral services under one roof.

Vision

“To provide Accessible ,Affordable and Quality Dental care for one and all at grass roots”

Goal

“To provide dental care facilities and create awareness among the community, establish Oral health Data bank to understand the pattern of dental disease and plan holistic dental services in the future”
