MOBILE DENTAL CLINIC PROJECT

Oral health is a fundamental aspect of overall well-being, yet it often remains overlooked in public health discussions. This neglect can lead to significant disparities in health outcomes,

particularly among marginalized communities who face barriers such as financial constraints, lack of awareness, and limited access to dental care services. Oral health outreach programs are essential in addressing these issues by providing education, preventive care, and early treatment options to underserved populations.

These programs play a crucial role in reducing health disparities by promoting awareness and access to dental care, which can significantly lower the incidence of oral diseases. They also

contribute to improving overall health outcomes, as poor oral health is linked to various systemic conditions like cardiovascular disease and diabetes. Furthermore, outreach initiatives enhance the quality of life for individuals by alleviating pain and social stigma associated with oral diseases

Keeping in view of the above facts; Maulana Azad Institute of Health Sciences under GNCT, Delhi initiated Mobile Dental Clinic Project under the umbrella of NHM/DSHM to provide Primary, Preventive, Promotive and Curative oral/ dental health care to underserved areas of NCT, Delhi on 1st May, 2014. **It is the “First of its Kind” project in India for Dental Outreach services.** The Program provides Dental Screening and treatment services, Dental Health Education and Capacity Building activities along with continuous quality assessment along with research.

The Six specially designed Mobile Dental Clinics cater to underserved population of Delhi. The Project aims to achieve the goals of the “Oral Health for All” by improving the access to Primary Oral Health Services. Further, the Project attempts to integrate the existing Health Care delivery services with the dental/oral services through an integrated need based dental care strategy. The Project has gradually evolved into various sub-components/ sub-initiatives targeting different special groups.

The various sub-initiatives are:

1. **Project NEEV: School Oral Health Care Program**
2. **Project ASHA HUMARI MUSKAAN: Maternal Oral healthcare Program**
3. **Project AMMA: Comprehensive Oral health care for Elderly**
4. **Project COPS: Community Oral Precancer Screening and Tobacco Cessation Services**
5. **Oral Healthcare for Persons with Disabilities.**
6. **Oral health Education and Awareness Campaigns**

PROJECT'S OUTREACH

The Project is providing dental care services in all 11 districts of GNCT of Delhi.

SCOPE OF SERVICES

The Mobile Dental Teams are catering to various areas/districts of Delhi in a scheduled fashion for 05 days in a week (Monday to Friday from 09.30 am to 02.00

pm). For optimum utilization of the Project and patient care; the teams work in coordination currently with the following areas:

- Delhi Govt. Dispensaries
- Schools under Department of Education, GNCT of Delhi
- Capacity Building Programs in collaboration with District ASHA Coordinators in all Districts.
- Senior Citizen Recreational Clubs under Department of Social Welfare and Social Justice, GNCT of Delhi.

These collaborative efforts are done to delivery of Primary, Preventive and Secondary level of dental care services to all vulnerable groups as well as communities across Delhi.

The range of treatment services provided includes:

1. Dental Screening
2. Dental restorations/tooth fillings
3. Oral Prophylaxis/teeth cleaning
4. Tooth Extraction
5. Root Canal Treatment
6. Dental Prosthetic treatments (Partial and Complete Dentures)
7. Tobacco cessation counselling
8. Oral Precancerous /Potentially malignant lesion screening
9. Preventive Treatment services like pit and fissure sealant applications, fluoride varnishes etc.
10. Medication (in liaison with dispensaries) & Referral for tertiary care

The teams from Mobile Dental Clinic Project visit the locations for five days a week on rotational basis from 9:30 A.M. to 2 P.M.

- Further, the Vans regularly visit Delhi Govt. Schools as per the schedule for Project NEEV.

For the month of NOVEMBER 2025 services of Mobile Dental Clinics were provided to following locations on rotational basis: TOTAL LOCATIONS SERVED:15, 07 DISTRICTS

Cluster	District	Dispensary Location	Distance from MAIDS
• Cluster I	South	DGD Dakshinpuri	15Km
		SKV SS Dakshinpuri	15Km
• Cluster II	East	DGD Kondli	17Km
		DGD Kalyanvas	11.4 Km
		RSKV No. 2, Shakarpur	8.1Km
		CM Shri School	12.7 Km
• Cluster III	Shahdara	DGD Seelampur	9.8 Km
		GGSS School, Welcome	9.9Km
• Cluster IV	Central	DGD Bhalaswa Dairy	20Km
		Burari Hospital	19Km
		Supreme Court	2.5Km
		GBSSS Mata Sundari Road	2.5Km
• Cluster V	West	Hastsal	23.9Km
• Cluster VI	North West	GBSSS Mangolpuri	22Km
• Cluster VII	South West	GBSSS Janakpuri	20Km

No. F.25 (31) (1)/ NHM circulars/MAIDS/2025-26/ 5149 - 52

Dated: 26/11/25

OFFICE ORDER

In supersession to the previous order No.F.25(31)(1)/NHMcirculars/MAIDS/2025-26/4579-82 dated 28/10/25, it is hereby ordered that the following staff members are posted in the newly functional Mobile Dental Units as per the details as under:

New Allocation					
S. No.	Mobile Dental Van No./ DGD	Staff Allotted	Designation	Details	Alloted Location
From 01/12/2025 to 31/12/2025					
1.	Van No. 1	Dr. Manoj Saboo	Dental Surgeon	Van Incharge	DGD Seelampur (Monday, Tuesday, Thursday) SKV Seelampur & 01 new school (Wednesday & Friday)
	DL1LAN4943	Mr. Govind	Chair Side Assistant		
		Mr. Rakesh	Driver		
		Mr. Hansraj	Dental Hygienist		
2.	Van No. 2	Dr. Nishtha	Dental Surgeon	Van Incharge	Mangolpuri School (Monday, Tuesday, Wednesday) SKV Idgah (Thursday, Friday)
	DL 1LAN 4256	Mr. Manoj	Chair Side Assistant		
		Mr. Kailash	Driver		
3.	Van No. 3	Dr. Neha Singh	Dental Surgeon	Van Incharge	DGD Dakshinpuri (Monday, Tuesday, Wednesday) SKV Dakshinpuri (Thursday, Friday)
	DL 1LAN 4140	Mr. Deepak	Chair Side Assistant		
		Mr. Vikash Bharti	Driver		
4.	Van No. 4	Dr. Girish	Dental Surgeon	Van Incharge	DGD Bhalaswa and 01 School Supreme Court (Every Thursday)
	DL 1LAN 4106	Mr. Ramesh	Chair Side Assistant		
		Mr. Vikash	Driver		
5.	Van No. 5	Dr. Annudeep Bajaj & Dr. Shipra	Dental Surgeons	Van Incharge	1. R.S.K.V No. 2 Shakarpur (Monday, Tuesday, Wednesday) 2. Lady Noyce School (Thursday, Friday)
	DL 1LAN 2281	Mr. Ramlal	Chair Side Assistant		
		Mr. Devender	Driver		
6.	Van No. 6	Dr. Deepak Verma	Dental Surgeon	Van Incharge	DGD Kalyanvas and 01 School
	DL 1LAN 2682	Mr. Arun	Helper		
		Mr. Kuldeep	Driver		
7.		Dr. Neha Gangil	Dental Surgeon	Unit Incharge	DGD Kondli
		Mr. Vikas (Helper)	Helper		

Duty roster for 01 Dental Hygienist

S. No	Staff	Designation	Alloted van & Location	From and till
1.	Mr. Arun Singh Dhama	Dental Hygienist	DL1LAN 4140 (DGD Dakshinpuri)	01/12/2025 till 10/12/2025
2.			DL1LAN 4106 (DGD Bhalaswa)	11/12/2025 till 20/12/2025
3.			DL1LAN 2682 (DGD Kalyanvas)	21/12/2025 till 31/12/2025

[Signature] 26/11/25

Also all teams to follow the **directions as under:**

1. For DGD Kondli ; the dental teams shall work from 08:00 AM to 02:00 PM, reporting directly to the respective dispensaries. Additionally, the teams shall report to MAIDS every Wednesday (post-dispensary work i.e. 08:00AM to 02:00PM) and every Saturday for documentation and coordination of Program related work.
2. The Medical Officers In-Charge in Delhi Govt. Dispensary Kondli shall also maintain and share the attendance records of the posted staff for transparency and record-keeping on monthly basis. The staff deputed shall submit the photocopy of the attendance at dispensary to the Office of MDCP.
3. All staff postings will continue on a rotation basis, to ensure equal distribution of workload and sustained engagement in all areas.
4. All Mobile Dental Clinics will make an effort to identify one Delhi Govt. School and conduct all activities related to Project "NEEV"
5. All other mandates of Mobile Dental Clinic Project like " Project AMMA", " Project ASHA HUMARI MUSKAAN", Project COPS" and " Health Awareness Campaigns" will be conducted accordingly in the areas presently working as well as any change will be intimated timely.
6. The allotted teams should ensure the uninterrupted delivery of dental health services to the community as per the guidelines of the Mobile Dental Clinic Project. All Incharges are directed to facilitate the proper induction of posted staff and report daily operational status to the Consultants.
7. All leaves for staff need to be communicated through proper channels so that there is no disruption in services and all communications to be made to respective Incharges of the designated locations
8. No staff shall directly report to the allotted location without prior information/permission.
9. This is issued with the prior approval of the Competent Authority.

Oral diseases are the most common disease that affects people throughout their life time.

The Global Burden of Disease Study 2017 estimated that oral disease affects at least 3.58

billion people worldwide. Oral health is fundamental to general health and well-being. A healthy mouth enables an individual to speak, eat and socialize without experiencing active disease, discomfort or embarrassment. Children who suffer from poor oral health are twelve times more likely to have restricted activity days than those who don't. Schools are microcosms of the larger community.

Fig 04: School wise OPD Details

With existing structures and systems in place, schools provide excellent opportunities for integrating oral health into the curriculum that is acceptable, appropriate and effective. Children are receptive to guidance and they are familiar with the learning environment and culture in

school. Schools can effectively inform and influence students' oral health knowledge, beliefs, attitudes and behaviour. It is important to target children, particularly at kindergartens and primary schools. Pupils need to acquire knowledge and skills that facilitate a healthy lifestyle and help them cope with social and peer pressure. Children are empowered to take control over their own health early in their lives and are encouraged to develop positive attitudes toward preventive measures

Hence providing incremental oral health care in schools could prove pivotal in changing the current scenario of huge oral disease burden and large component of dental unmet needs.

Keeping in view of the above facts; the Mobile Dental Clinic Project initiated Project "Neev" in collaboration with School Health Scheme, since September 2014. The Program included Dental Health Education and Dental Screening with preventive Dental procedures. One day per week i.e. Wednesday was dedicated to School Oral health program. **It is a comprehensive oral health program for Govt. school children in rural areas encouraging the concept of health**

Promoting Schools. Since Feb. 2016, treatment component was also added to provide dental treatment within school premises. It is a comprehensive oral health program for Govt. school children in rural areas encouraging the concept of health Promoting Schools.

Fig. 5: Program Implementation Plan

2. PROJECT AMMA: COMPREHENSIVE ORAL HEALTHCARE FOR ELDERLY

The global population is growing as well as ageing. The age structure of the population is changing owing to demographic transition with increasing levels of life expectancy and decreasing levels of fertility in almost all countries, leading to an increase in both the share and number of older persons across world. With increasing life expectancy, the burden of Non-Communicable diseases a matter of concern for the community. According to Population Census 2011 there are nearly 104 million elderly persons (aged 60 years or above) in India; 53 million females and 51 million males. 5.9% of the population of Delhi comprises of citizens aged 60+. ¹ The projections indicate that the number of 60+ in Delhi will increase to 24.24 Lakhs in 2026. Continuous increase in life expectancy means that more people are now living longer.

Huge burden of Oral Diseases among Geriatric Population

of

To cater to the demand of high unmet health needs geriatric population the concept of Geriatric day/Senior Citizen OPD Day is already existent in Delhi Govt. Dispensaries and Hospitals. However, oral health often remains neglected and an under-served realm. Almost 20% of the patients reporting

to the OPD of Mobile Dental Clinics belong to geriatric population such that on an average 450 to 500 patients per month seek dental care in Mobile dental vans. Almost 39% of the patients diagnosed with dental caries and 33% of the patients suffering from gingival/periodontal diseases belong to geriatric population clearly indicating high burden of oral diseases amongst this special group. Almost 14 % of the geriatric population suffer from edentulousness. This not only affects their general health but also affects the quality of life in general. A considerable number of geriatric populations have limited knowledge of the cause and prevention of oral disease as well.

Providing primary and secondary level of dental care to the geriatric population through a Comprehensive oral health care Program for Elderly is vital for a country like India which has a significant proportion of elderly population. Hence, considering the huge unmet dental need of the elderly population of GNCTD; the Mobile Dental Clinic Project has initiated **PROJECT “AMMA: COMPREHENSIVE ORAL HEALTHCARE PROGRAM FOR THE ELDERLY.”** The program has been initiated with collaboration with Department of Social Welfare & Security which supervises old age homes and Senior Citizen’s Recreation Centres under GNCTD for further coordination and organizing various activities. The

Project has expanded its horizon by initiating Free Denture delivery services to the patients of Project AMMA. November 2024 marks the launch of an innovative initiative under Project AMMA of Mobile Dental Clinic Project: “Free Denture Delivery”.

Project Amma’s activities in November 2025:

The Project has expanded its horizon by initiating Free Denture delivery services to the patients of Project AMMA. November 2024 marks the launch of an innovative initiative under Project AMMA of Mobile Dental Clinic Project: “Free Denture Delivery”

NOVEMBER-2025	1650	2785	4435

3. HEALTH PROMOTIONAL, CAPACITY BUILDING AND TEAM BUILDING ACTIVITIES

A. HEALTH EDUCATION SESSION ON “ILL EFFECT OF TOBACCO AND E-CIGARETTE TO ENFORCERS (POLICE):

On 27/11/2025, as part of the **National Tobacco Control Programme (NTCP)**, we conducted a **Health Education Session** on the “**Ill Effects of Tobacco and E-cigarettes**” during the **Orientation Program for Police Enforcers at Police Station, PVR, Saket**. The session aimed to raise awareness among law enforcement personnel about the harmful health, social, and legal consequences of tobacco products and e-cigarette use, reinforcing

their critical role in implementing tobacco control laws and supporting public health initiatives. This activity aligns with NTCP’s objectives of strengthening information, education, and communication (IEC) efforts and building capacity among enforcement officers to effectively curb tobacco use in

the community

B. WEEKLY TRAINING SESSION ON COTPA:

On 29/11/2025, a weekly training session on the **legal framework and enforcement mechanisms under the Cigarettes and Other Tobacco Products Act (COTPA), 2003, and the Food Safety and Standards (FSS) Act, 2006** was conducted by Dr. Divyangi, Consultant. The

session provided participants with a comprehensive understanding of the key provisions and operational aspects of COTPA, including restrictions on smoking in public places, prohibition of tobacco advertising, sale of tobacco products to minors, mandated health warnings on packaging, and enforcement responsibilities of authorities under the Act, aimed at strengthening effective tobacco control at the community level.

Additionally, the training covered the relevance of the **Food Safety and Standards Act, 2006**, and related regulations issued by the Food Safety and Standards Authority of India (FSSAI), particularly provisions that prohibit the use of tobacco and nicotine as ingredients in food products, laying out regulatory standards to protect public health.

C. IEC DEVELOPMENT:

The Consultant, Dr. Swati Jain, has developed a comprehensive IEC video for geriatric patients on **“Denture Care”** with the aim of enhancing awareness regarding correct denture usage, cleaning methods, storage practices, and the importance of regular oral check-ups among the elderly population. The content has been designed in a simple, patient-friendly, and culturally appropriate manner to ensure better understanding and adoption of healthy oral hygiene practices by geriatric beneficiaries. The IEC video also emphasizes the prevention of common denture-related problems and overall improvement of oral health-related quality of life. The video is presently **under process of validation** by the competent authority prior to its approval and dissemination for field-level implementation.

D. PARTICIPATION IN IITF 2025:

The staff actively participated in **IITF 2025** and worked in close coordination with the team from the **Department of Public Health Dentistry, Maulana Azad Institute of Dental Sciences**

(MAIDS) and NRC-OH-TC for conducting dental screening of patients visiting the MoHFW stall during the event. The coordinated efforts ensured smooth planning and execution of screening activities, including preliminary oral examination, identification of common dental problems, and counselling on oral hygiene practices. The team also facilitated referral guidance for patients requiring further treatment and contributed to oral health awareness among a large and diverse population attending the fair, thereby strengthening the outreach and visibility of public oral health services under the MoHFW platform.

5. Monitoring & Evaluation of Mobile Dental Clinic Project

A. Digitalized Feedback Form

Monitoring and evaluation (M&E) are critical components of the Mobile Dental Clinic Project to ensure its effectiveness, efficiency, and continuous improvement. The M&E framework of the project focuses on assessing service quality, patient satisfaction, and the overall impact of dental outreach activities. In a recent innovation aimed at strengthening the evaluation process, the Consultant, Dr. Swati Jain, to systematically capture patient responses and assess the project's outcomes more accurately and efficiently, developed a Digital Feedback Form.

To

facilitate easy access, a QR code was generated, allowing patients to conveniently scan and fill the

digital form using their smartphones immediately after receiving treatment. This innovation has modernized the feedback collection process by replacing paper-based forms, reducing manual errors, and ensuring real time data collection and analysis. The digital feedback system became operational on 21st April 2025, marking a significant step forward in patient engagement and project assessment. In the month of July 2025, a total of 248 digital feedback forms were successfully filled out by patients reflecting encouraging participation and acceptance of the new system. The collected feedback is currently being analysed to derive insights into patient satisfaction, service quality, and areas needing improvement. This data-driven approach will significantly contribute to enhancing service delivery and strategic planning for future mobile dental camps.

Number of Feedback Forms collected for the month of November'25 – 83

B. Field Visits by Consultants

To ensure optimum utilization of resources and improved patient outcomes, the Consultants of the Mobile Dental Clinic Project conduct regular field visits. These visits help in closely monitoring the on-ground implementation, identifying challenges and gaps in service delivery, and facilitating timely corrective measures. This proactive approach ensures continuous improvement in the quality and effectiveness of dental care services provided through the project.

The Following field visits were conducted:

Date of Field Visit	Location	Field Visit By
04/11/2025	DGD Dakshinpuri	Dr. Divyangi Goel
13/11/2025	RSKV NO2 Shakarpur	Dr. Swati Jain Dr. Divyangi Goel
