MOBILE DENTAL CLINIC PROJECT

Oral health is a fundamental aspect of overall well-being, yet it often remains overlooked in public health discussions. This neglect can lead to significant disparities in health outcomes,

particularly among marginalized communities who face barriers such as financial constraints, lack of awareness, and limited access to dental care services. Oral health outreach programs are essential in addressing these issues by providing education, preventive care, and early treatment options to underserved populations.

These programs play a crucial role in reducing health disparities by promoting awareness and access to dental care, which can significantly lower the incidence of oral diseases. They also contribute to improving overall health outcomes, as poor oral health is linked to various systemic conditions like cardiovascular disease and diabetes. Furthermore, outreach initiatives enhance the quality of life for individuals by alleviating pain and social stigma associated with oral diseases.

Keeping in view of the above facts; Maulana Azad Institute of Health Sciences under GNCT, Delhi initiated Mobile Dental Clinic Project under the umbrella of NHM/DSHM to provide Primary, Preventive, Promotive and Curative oral/ dental health care to underserved areas of NCT, Delhi on 1st May, 2014. It is the “First of its Kind” project in India for Dental Outreach services. The Program provides Dental Screening and treatment services, Dental Health Education and Capacity Building activities along with continuous quality assessment along with research.

The Six specially designed Mobile Dental Clinics cater to underserved population of Delhi. The Project aims to achieve the goals of the “Oral Health for All” by improving the access to Primary Oral Health Services. Further, the Project attempts to integrate the existing Health Care delivery services with the dental/oral services through an integrated need based dental care strategy. The Project has gradually evolved into various sub-components/ sub-initiatives targeting different special groups.

The various sub-initiatives are:

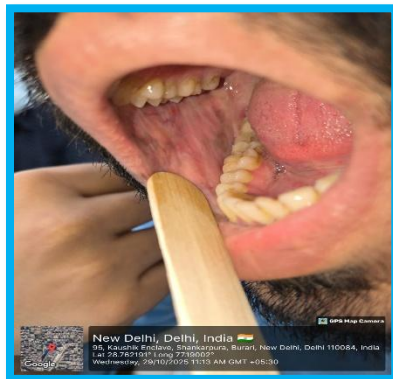

1. **Project NEEV: School Oral Health Care Program**
2. **Project ASHA HUMARI MUSKAAN: Maternal Oral healthcare Program**
3. **Project AMMA: Comprehensive Oral health care for Elderly**
4. **Project COPS: Community Oral Precancer Screening and Tobacco Cessation Services**
5. **Oral Healthcare for Persons with Disabilities.**
6. **Oral health Education and Awareness Campaigns**

PROJECT'S OUTREACH

The Project is providing dental care services in all 11 districts of GNCT of Delhi.

SCOPE OF SERVICES

The Mobile Dental Teams are catering to various areas/districts of Delhi in a scheduled fashion for

05 days in a week (Monday to Friday from 09.30 am to 02.00 pm). For optimum utilization of the Project and patient care; the teams work in coordination currently with the following areas:

- Delhi Govt. Dispensaries
- Schools under Department of Education, GNCT of Delhi
- Capacity Building Programs in collaboration with District ASHA Coordinators in all Districts.
- Senior Citizen Recreational Clubs under Department of Social Welfare and Social Justice, GNCT of Delhi.

These collaborative efforts are done to delivery of Primary, Preventive and Secondary level of dental care services to all vulnerable groups as well as communities across Delhi.

The range of treatment services provided includes:

1. Dental Screening
2. Dental restorations/tooth fillings
3. Oral Prophylaxis/teeth cleaning
4. Tooth Extraction
5. Root Canal Treatment
6. Dental Prosthetic treatments (Partial and Complete Dentures)
7. Tobacco cessation counselling
8. Oral Precancerous /Potentially malignant lesion screening
9. Preventive Treatment services like pit and fissure sealant applications, fluoride varnishes etc.
10. Medication (in liaison with dispensaries) & Referral for tertiary care

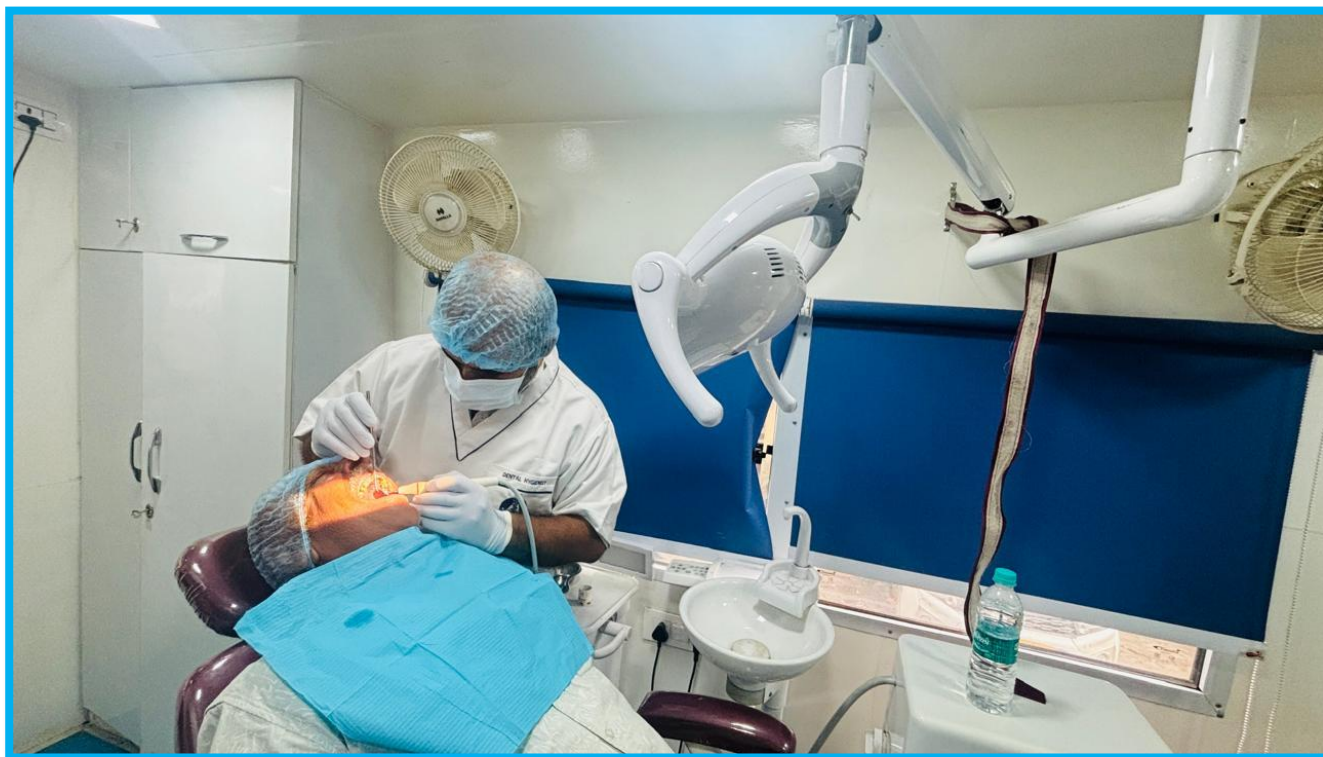

The teams from Mobile Dental Clinic Project visit the locations for five days a week on rotational basis from 9:30 A.M. to 2 P.M.

- Further, the Vans regularly visit Delhi Govt. Schools as per the schedule for Project NEEV.

For the month of OCTOBER 2025 services of Mobile Dental Clinics were provided to following locations on rotational basis: TOTAL LOCATIONS SERVED:12, 04 DISTRICTS

Cluster	District	Dispensary Location	Distance from MAIDS
• Cluster I	West Delhi	Hastsal	23.9 Km
		Vikas Nagar 2	24 Km
• Cluster II	East	DGD Kondli	17.8 km
• Cluster III	Shahdara	DGD Seelampur	11.2 Km
• Cluster IV	Central	DGD Gulabi Bagh	8.4Km
		Burari Hospital	17.7Km
		DGD Majnu Ka Tila	12Km
• Cluster V	North	DGD Basant Gaon	14Km
		DGD Narela	37.4Km

No. F.25 (31)(1)/ NHM circulars/MAIDS/2025-26/4032-35

Dated: 29/9/25

OFFICE ORDER

In supersession to the previous order No.F.25(31)(1)/NHM circulars/MAIDS/2025-26/3194-96 dated 23/08/25, it is hereby ordered that the following staff members are posted in the newly functional Mobile Dental Units as per the details as under:

New Allocation					
S.No.	Mobile Dental Van No./ DGD	Staff Allotted	Designation	Details	Allotted Location From 01/10/2025 to 31/10/2025
1.	Van No. 1	Dr. Manoj Saboo	Dental Surgeon	Van Incharge	Hastal
	DL ILAN 4943	Mr. Deepak	Chair Side Assistant		
		Mr. Kuldeep	Driver		
2.	Van No. 2	Dr. Nishtha	Dental Surgeon	Van Incharge	DGD Gulabi bagh
	DL ILAN 4256	Mr. Ramesh	Chair Side Assistant		
		Mr. Vikas Kumar	Driver		
3.	Van No. 3	Dr. Neha Singh	Dental Surgeon	Van Incharge	DGD Seelampur
	DL ILAN 4140	Mr. Arun Singh Dhama	Dental Hygienist		
		Mr. Arun	Helper		
4.	Van No. 4	Dr. Girish (Team 1)	Dental Surgeon		School
	DL ILAN 4106	Mr. Ramlal (Team 1)	Chair Side Assistant		
		Dr. Shipra Arora (Team 2)	Dental Surgeon	Van Incharge	
5.	Van No. 5	Mr. Sachin (Team 2)	Chair Side Assistant		
	DL ILAN 2281	Mr. Vikash Bharti	Driver		
		Dr. Annudeep Bajaj	Dental Surgeon	Van Incharge	Burari Hospital
6.	Van No. 6	Mr. Hansraj	Dental Hygienist		
	DL ILAN 2682	Mr. Manoj	Helper CSA		
		Mr. Kailash	Driver		
7.	Van No. 6	Dr. Deepak Verma	Dental Surgeon	Van Incharge	West District (Location 2)
	DL ILAN 2682	Mr. Govind	Chair Side Assistant		
		Mr. Devender	Driver		
7.		Dr. Neha Gangil	Dental Surgeon	Unit Incharge	DGD Kondli
		Mr. Vikas (Helper)	Helper		

Also all teams to follow the **directions as under:**

- For DGD Kondli ; the dental teams shall work from 08:00 AM to 02:00 PM, reporting directly to the respective dispensaries. Additionally, the teams shall report to MAIDS every Wednesday (post-dispensary work i.e. 08:00AM to 02:00PM) and every Saturday for documentation and coordination of Program related work.
- The teams reporting directly to the locations shall submit daily geo-tagged photographs upon arrival and departure to ensure time compliance.

Dr. Manoj Saboo
Medical Officer (M.O./Mo)
Mobile Dental Clinic Project
Maulana Azad Institute of Dental Sciences

3. The Medical Officers In-Charge in Delhi Govt. Dispensary Kondli shall also maintain and share the attendance records of the posted staff for transparency and record-keeping on monthly basis. The request letter shall also be sent informing them about this deputation.
4. All staff postings will continue on a rotation basis, to ensure equal distribution of workload and sustained engagement in all areas.
5. All Mobile Dental Clinics will make an effort to identify one Delhi Govt. School and conduct all activities related to Project "NEEV" - *08.30 am to 03.30 pm.*
6. All other mandates of Mobile Dental Clinic Project like "Project AMMA", "Project ASHA HUMARI MUSKAAN", Project COPS" and "Health Awareness Campaigns" will be conducted accordingly in the areas presently working as well as any change will be intimated timely.
7. The allotted teams should ensure the uninterrupted delivery of dental health services to the community as per the guidelines of the Mobile Dental Clinic Project. All Incharges are directed to facilitate the proper induction of posted staff and report daily operational status to the Consultants.
8. This is issued with the prior approval of the Competent Authority.

2. PROJECT AMMA: COMPREHENSIVE ORAL HEALTHCARE FOR ELDERLY

The global population is growing as well as ageing. The age structure of the population is changing owing to demographic transition with increasing levels of life expectancy and decreasing levels of fertility in almost all countries, leading to an increase in both the share and number of older persons across world. With increasing life expectancy, the burden of Non-Communicable diseases a matter of concern for the community. According to Population Census 2011 there are nearly 104 million elderly persons (aged 60 years or above) in India; 53 million females and 51 million males. 5.9% of the population of Delhi comprises of citizens aged 60+.¹ The projections indicate that the number of 60+ in Delhi will increase to 24.24 Lakhs in 2026. Continuous increase in life expectancy means that more people are now living longer.

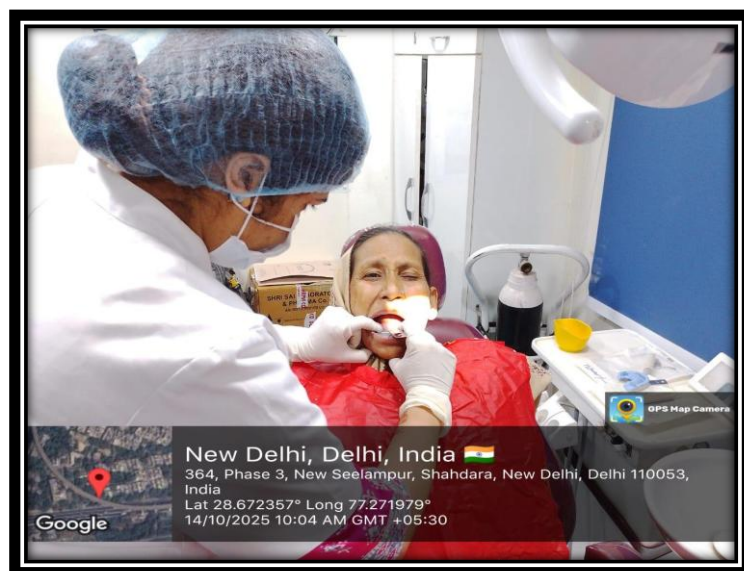

Huge burden of Oral Diseases among Geriatric Population

To cater to the demand of high unmet health needs of geriatric population the concept of Geriatric day/Senior Citizen OPD Day is already existent in Delhi Govt. Dispensaries and Hospitals. However, oral health often remains neglected and an under-served realm. Almost 20% of the patients reporting to the OPD of Mobile Dental Clinics belong to geriatric population such that on an average 450 to 500 patients per month seek dental care in Mobile dental

vans. Almost 39% of the patients diagnosed with dental caries and 33% of the patients suffering from gingival/periodontal diseases belong to geriatric population clearly indicating high burden of oral diseases amongst this special group. Almost 14 % of the geriatric population suffer from edentulousness. This not only affects their general health but also affects the quality of life in general. A considerable number of geriatric populations have limited knowledge of the cause and prevention of oral disease as well.

Providing primary and secondary level of dental care to the geriatric population through a Comprehensive oral health care Program for Elderly s vital for a country like India which has a significant proportion of elderly population. Hence, considering the huge unmet dental need of the elderly population of GNCTD; the Mobile Dental Clinic Project has initiated **PROJECT “AMMA: COMPREHENSIVE ORAL HEALTHCARE PROGRAM FOR THE ELDERLY.”** The program has been initiated with collaboration with Department of Social Welfare & Security which supervises old age homes and Senior Citizen’s Recreation Centres under GNCTD for further coordination and organizing various activities. The Project has expanded its horizon by initiating Free Denture delivery services to the patients of Project AMMA. November 2024 marks the launch of an innovative initiative under Project AMMA of Mobile Dental Clinic Project: “Free Denture Delivery”.

Project Amma’s activities in July 2025:

The Project has expanded its horizon by initiating Free Denture delivery services to the patients of Project AMMA. November 2024 marks the launch of an innovative initiative under Project AMMA of Mobile Dental Clinic Project: “Free Denture Delivery”

Details of Denture work -

1. Total Rpd Cases- 4(1upper and 3 lower)
2. Total CD cases - 0(upper and Lower)
3. Other Denture related work – 6
4. TOTAL – 10

3. ASHA HUMARI MUSKAAN PROGRAM

As part of Project expansion and to enhance dental care accessibility, the project is regularly training the ASHA Health Workers under the “Asha Hamari Muskaan Program”. The Refresher training on oral health conducted for ASHA workers is vital for sustaining effective community health initiatives. It enhances the ability of ASHA workers

to promote preventive oral care, identify and refer patients early, and contribute to the overall reduction in the burden of oral diseases, especially in underserved and rural areas. Regular training is provided to keep them motivated, empowered, and aligned with national health to nearly 3000 ASHA/ANM workers and this initiative has been greatly appreciated by the Ministry of Health and Family Welfare.

As per the recent communication received from the State Programme Officer, now the Oral Health training will be extended to the all the ASHA/ANM trainings. A two hour Session has been provided to the trainers/resource person from the MDCP, MAIDS.

Many training sessions are conducted in rural or remote locations in Delhi where ASHA workers operate. The Team of Mobile Dental Clinic Project has to travel long distances, often to areas with limited transportation options.

Overview:

ASHA Training was conducted at AAM Basant Gaon. Following the training, the ASHA's were provided

Dental checkups, focusing on early detection and treatment of dental issues. The total 42 Asha workers were trained and also their check-up were done for oral diseases. Team provided the Comprehensive dental examinations, Oral health education and hygiene

CUMULATIVE MONTHLY OPD DATA

MONTH	TOTAL OPD IN DISPENSARIES AND HOSPITALS	TOTAL OPD IN SCHOOLS	TOTAL OPD
OCTOBER-2025	2306	0	2306

3. HEALTH PROMOTIONAL AND CAPACITY BUILDING ACTIVITIES

A. PARTICIPATED IN WORLD ADOLESCENT DAY CELEBRATION ON 10/10/2025:

Our mobile dental-clinic team participated in the **World Adolescent Day celebration** at **DGD**

Gulabi Bagh, where we delivered a health-talk to the adolescent attendees and demonstrated the correct tooth-brushing technique. This session emphasized the critical importance of proper oral hygiene during adolescence (a time when teens are particularly vulnerable to cavities and gum issues if

hygiene is neglected).

By teaching and showing the correct brushing method, we aimed to equip participants with practical, lifelong habits that help prevent dental caries, gum disease and other oral-health problems as they grow older. This outreach activity- combining awareness, education, and demonstration supports preventive dental care

among adolescents, whose dietary habits and oral-hygiene practices often change rapidly in this age group.

B. CELEBRATED EKTA DIWAS ON 31/10/2025:

On 31 October 2025 — the 150th birth anniversary of Sardar Vallabhbhai Patel, revered as the

“Iron Man of India” — our institute observed Rashtriya Ekta Diwas at MAIDS.

In addition to conducting the pledge at the main location, we also organized the pledge-ceremony at deputed locations and actively mobilized patients to participate, thereby spreading awareness about national unity and the spirit of Ekta Diwas. The activity reflects our commitment to foster unity, solidarity and civic spirit among all

stakeholders — staff, students and patients — in line with the values commemorated on this occasion.

C. TRAINING ON IEC DEVELOPMENT FOR STATE NODAL OFFICERS UNDER NOHP

Officers under the National Oral Health Programme (NOHP) at AIIMS. This training aimed to strengthen capacity for designing and implementing IEC materials and strategies to promote oral health

On 31 October 2025, our MOI/C Dr. Vikrant Mohanty and Consultant Dr. Swati Jain attended a training on IEC (Information, Education and Communication) development for State Nodal

awareness in communities, in line with the programme's mandate to support State-level IEC and BCC activities

5. Monitoring & Evaluation of Mobile Dental Clinic Project

A. Digitalized Feedback Form

Monitoring and evaluation (M&E) are critical components of the Mobile Dental Clinic Project to ensure its effectiveness, efficiency, and continuous improvement. The M&E framework of the project focuses on assessing service quality, patient satisfaction, and the overall impact of dental outreach activities. In a recent innovation aimed at strengthening the evaluation process, the Consultant, Dr. Swati Jain, to systematically capture patient responses and assess the project's outcomes more accurately and efficiently, developed a Digital Feedback Form.

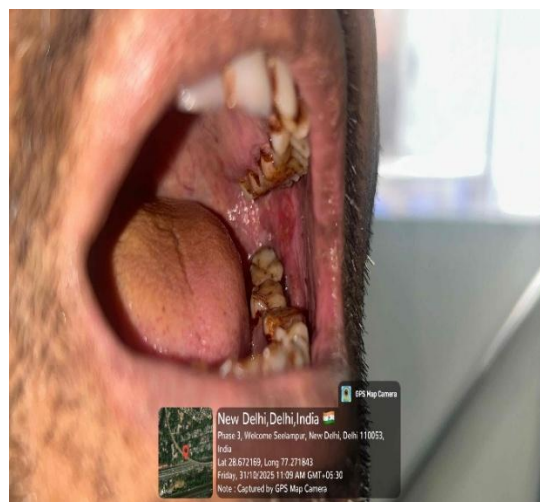

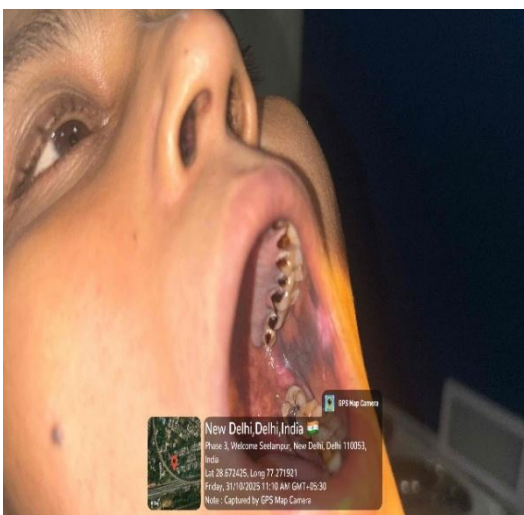

To facilitate easy access, a QR code was generated, allowing patients to conveniently scan and fill the digital form using their smartphones immediately after receiving treatment. This innovation has modernized the feedback collection process by replacing paper-based forms, reducing manual errors, and ensuring real time data collection and analysis. The digital feedback system became operational on 21st April 2025, marking a significant step forward in patient engagement and

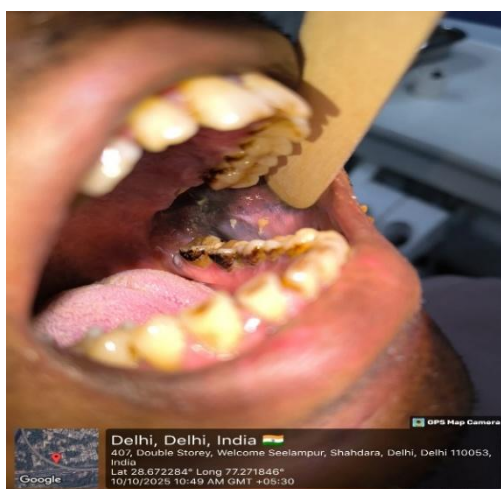

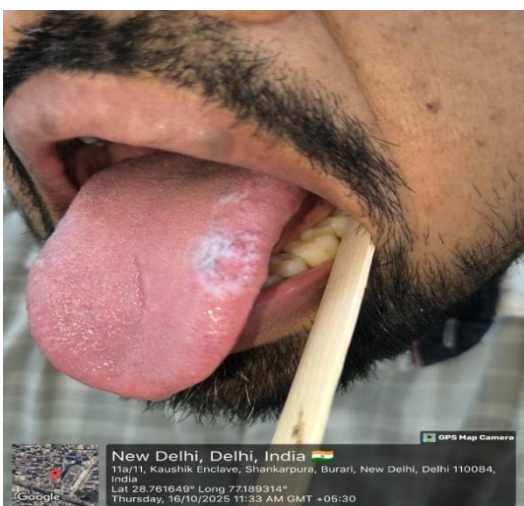

project assessment. In the month of July 2025, a total of 248 digital feedback forms were successfully filled out by patients reflecting encouraging participation and acceptance of the new system. The collected feedback is currently being analysed to derive insights into patient satisfaction, service quality, and areas needing improvement. This data-driven approach will significantly contribute to enhancing service delivery and strategic planning for future mobile dental camps.

Number of Feedback Forms collected for the month of October'25 – 128
