MOBILE DENTAL CLINIC PROJECT

Oral health is a fundamental aspect of overall well-being, yet it often remains overlooked in public health discussions. This neglect can lead to significant disparities in health outcomes, particularly among marginalized communities who face barriers such as financial constraints, lack of awareness, and limited access to dental care services. Oral health outreach programs are essential in addressing

these issues by providing education, preventive care, and early treatment options to underserved populations.

These programs play a crucial role in reducing health disparities by promoting awareness and access to dental care, which can significantly lower the incidence of oral diseases. They also contribute to improving overall health outcomes,

as poor oral health is linked to various systemic conditions like cardiovascular disease and diabetes. Furthermore, outreach initiatives enhance the quality of life for individuals by alleviating pain and social stigma associated with oral diseases

Keeping in view of the above facts; Maulana Azad Institute of Health Sciences under GNCT, Delhi initiated Mobile Dental Clinic Project under the umbrella of NHM/DSHM to provide Primary, Preventive, Promotive and Curative oral/ dental health care to underserved areas of NCT, Delhi on 1st May. 2014. **It is the “First of its Kind” project in India for Dental Outreach services.** The Program provides Dental Screening and treatment services, Dental Health Education and Capacity Building activities along with continuous quality assessment along with research.

The Six specially designed Mobile Dental Clinics cater to underserved population of Delhi. The Project aims to achieve the goals of the “Oral Health for All” by improving the access to Primary Oral Health Services. Further, the Project attempts to integrate the existing Health Care delivery services with the dental/oral services through an integrated need based dental care strategy. The Project has gradually evolved into various sub-components/ sub-initiatives targeting different special groups.

The various sub-initiatives are:

1. **Project NEEV: School Oral Health Care Program**
2. **Project ASHA HUMARI MUSKAAN: Maternal Oral healthcare Program**
3. **Project AMMA: Comprehensive Oral health care for Elderly**
4. **Project COPS: Community Oral Precancer Screening and Tobacco Cessation Services**
5. **Oral Healthcare for Persons with Disabilities.**
6. **Oral health Education and Awareness Campaigns**

PROJECT'S OUTREACH

The Project is providing dental care services in all 11 districts of GNCT of Delhi.

SCOPE OF SERVICES

The Mobile Dental Teams are catering to various areas/districts of Delhi in a scheduled fashion for 05 days in a week (Monday to Friday from 09.30 am to 02.00 pm).

For optimum utilization of the Project

and patient care; the teams work in coordination currently with the following areas:

- Delhi Govt. Dispensaries
- Schools under Department of Education, GNCT of Delhi
- Capacity Building Programs in collaboration with District ASHA Coordinators in all Districts.
- Senior Citizen Recreational Clubs under Department of Social Welfare and Social Justice, GNCT of Delhi.

These collaborative efforts are done to delivery of Primary, Preventive and Secondary level of dental care services to all vulnerable groups as well as communities across Delhi.

The range of treatment services provided includes:

1. Dental Screening
2. Dental restorations/tooth fillings
3. Oral Prophylaxis/teeth cleaning
4. Tooth Extraction
5. Root Canal Treatment
6. Dental Prosthetic treatments (Partial and Complete Dentures)

7. Tobacco cessation counselling
8. Oral Precancerous /Potentially malignant lesion screening
9. Preventive Treatment services like pit and fissure sealant applications, fluoride varnishes etc.
10. Medication (in liaison with dispensaries) & Referral for tertiary care

The teams from Mobile Dental Clinic Project visit the locations for five days a week on rotational basis from 9:30 A.M. to 2 P.M.

- Further, the Vans regularly visit Delhi Govt. Schools as per the schedule for Project NEEV.

For the month of FEBRUARY 2026 services of Mobile Dental Clinics were provided to following locations on rotational basis: TOTAL LOCATIONS SERVED:12, 05 DISTRICTS

Cluster	District	Dispensary Location	Distance from MAIDS
• Cluster I	South	DGD Dakshinpuri	15Km
		DGD Jonapur	27Km
• Cluster II	East	DGD Kondli	17Km
		DGD Kalyanvas	11.4 Km
		Lady Noyce SS School	2.3Km
• Cluster III	Shahdara	DGD Seelampur	9.8 Km
• Cluster IV	Central	DGD Bhalaswa Dairy	20Km
		Supreme Court	2.5Km
• Cluster V	North West	GBSSS Mangolpuri	22Km

Medical Officer Incharge (M.O./IC)
Mobile Dental Clinic Project
Maulana Azad Institute of Dental Sciences
Govt. of Delhi, Delhi

Also all teams to follow the **directions as under:**

1. All staff postings will be on a rotation basis, to ensure equal distribution of workload and sustained engagement in all areas. All teams shall ensure regular upkeep and clean Mobile Dental Clinic settings. The Dental Surgeon and CSA are responsible for this upkeep.
2. All Mobile Dental Clinics will make an effort to identify one Delhi Govt. School and conduct all activities related to Project "NEEV"
3. All other mandates of Mobile Dental Clinic Project like "Project AMMA", "Project ASHA HUMARI MUSKAAN", Project COPS" and "Health Awareness Campaigns" will be conducted accordingly in the areas presently working as well as any change will be intimated timely.
4. For DGD Kondli ; the dental teams shall work from 08:00 AM to 02:00 PM, reporting directly to the respective dispensaries. Additionally, the teams shall report to MAIDS every Wednesday (post-dispensary work i.e. 08:00AM to 02:00PM) and every Saturday for documentation and coordination of Program related work. Attendance copies shall be submitted after verification from Medical Officer of Dispensary.
5. The allotted teams should ensure the uninterrupted delivery of dental health services to the community as per the guidelines of the Mobile Dental Clinic Project. All Incharges are directed to facilitate the proper induction of posted staff and report daily operational status to the Consultants.
6. **All leaves for staff need to be communicated through proper channels so that there is no disruption in services and all communications to be made to respective Incharges of the designated locations**
7. **No staff shall directly report to the allotted location without prior information/permission.**
8. This is issued with the prior approval of the Competent Authority.

Oral diseases are the most common disease that affects people throughout their life time.

The Global Burden of Disease Study 2017 estimated that oral disease affects at least 3.58 billion people worldwide. Oral health is fundamental to general health and well-being. A healthy mouth enables an individual to speak, eat and socialize without experiencing active disease, discomfort or embarrassment. Children who suffer from poor oral health are twelve times more likely to have restricted activity days than those who don't. Schools are microcosms of the larger community.

With existing structures and systems in place, schools provide excellent opportunities for integrating oral health into the curriculum that is acceptable, appropriate and effective. Children are receptive to guidance and they are familiar with the learning environment and

culture in school. Schools can effectively inform and influence students' oral health knowledge, beliefs, attitudes and behaviour. It is important to target children, particularly at kindergartens and primary schools. Pupils need to acquire knowledge and skills that facilitate a healthy lifestyle and help them cope with social and peer pressure. Children are empowered to take control over their own

health early in their lives and are encouraged to develop positive attitudes toward preventive measures.

Hence providing incremental oral health care in schools could prove pivotal in changing the current scenario of huge oral disease burden and large component of dental unmet needs.

Keeping in view of the above facts; the Mobile Dental Clinic Project initiated Project “Neev” in collaboration with School Health Scheme, since September 2014. The Program included Dental Health Education and Dental Screening with preventive Dental procedures. One day per week i.e. Wednesday was dedicated to School Oral health program. **It is a comprehensive oral health program for Govt. school children in rural areas encouraging the concept of health Promoting Schools.** Since Feb. 2016, treatment component was also added to provide dental treatment within school premises. It is a comprehensive oral health program for Govt. school children in rural areas encouraging the concept of health Promoting Schools.

Fig. 5: Program Implementation Plan

2. PROJECT AMMA: COMPREHENSIVE ORAL HEALTHCARE FOR ELDERLY

The global population is growing as well as ageing. The age structure of the population is changing owing to demographic transition with increasing levels of life expectancy and decreasing levels of fertility in almost all countries, leading to an increase in both the share and number of older persons across world. With increasing life expectancy, the burden of Non-Communicable diseases a matter of concern for the community. According to Population Census 2011 there are nearly 104 million elderly persons (aged 60 years or above) in India; 53 million females and 51 million males. 5.9% of the population of Delhi comprises of citizens aged 60+.¹ The projections indicate that the number of 60+ in Delhi will increase to 24.24 Lakhs in 2026. Continuous increase in life expectancy means that more people are now living longer.

Huge burden of Oral Diseases among Geriatric Population

To cater to the demand of high unmet health needs of geriatric population the concept of

Geriatric day/Senior Citizen OPD Day is already existent in Delhi Govt. Dispensaries and Hospitals. However, oral health often remains neglected and an under-served realm. Almost 20% of the patients reporting to the OPD of Mobile Dental Clinics belong to geriatric population such that on an average 450 to 500 patients per month seek dental care in Mobile dental vans. Almost 39% of the patients diagnosed with dental caries and 33% of the patients suffering from gingival/periodontal diseases belong to geriatric population clearly indicating high

burden of oral diseases amongst this special group. Almost 14 % of the geriatric population suffer from edentulousness. This not only affects their general health but also affects the quality of life in general. A considerable number of geriatric populations have limited knowledge of the cause and prevention of oral disease as well.

Providing primary and secondary level of dental care to the geriatric population through a Comprehensive oral health care Program for Elderly s vital for a country like India which has a significant proportion of elderly population. Hence, considering the huge unmet dental need of the elderly population of GNCTD; the Mobile Dental Clinic Project has initiated **PROJECT “AMMA: COMPREHENSIVE ORAL HEALTHCARE PROGRAM FOR THE ELDERLY.”** The program has been initiated with collaboration with Department of Social Welfare & Security which supervises old age homes and Senior Citizen’s Recreation Centres under GNCTD for further coordination and organizing various activities. The Project has expanded its horizon by initiating Free Denture delivery services to the patients of Project AMMA. November 2024 marks the launch of an innovative initiative under Project AMMA of Mobile Dental Clinic Project: “Free Denture Delivery”.

Project Amma’s activities in FEBRUARY 2026:

Details of Denture work -

1. Total Rpd Cases-7 (3 upper and 4 lower)
2. Total CD cases – 03 (02 upper and 01 Lower)
3. Other Denture related work – 07
4. TOTAL - 17

CUMULATIVE MONTHLY OPD DATA

MONTH	TOTAL OPD IN DISPENSARIES AND HOSPITALS	TOTAL OPD IN SCHOOLS	TOTAL OPD
FEBRUARY- 2026	1422	206	1628

3. HEALTH PROMOTIONAL, CAPACITY BUILDING AND TEAM BUILDING ACTIVITIES

A. A STATE-LEVEL WORKSHOP FOR ORIENTATION OF DENTAL OFFICERS

UNDER NOHP: A State-Level Workshop for Orientation of Dental Officers under the National Oral Health Programme (NOHP) was successfully conducted on 06/02/2026 at Maulana Azad Institute of Dental Sciences (MAIDS). The workshop aimed to enhance the knowledge and skills of dental officers regarding the objectives, implementation strategies, and effective delivery of oral health services under NOHP. Participants actively engaged in discussions and sessions focused on program guidelines, community outreach, and preventive dental care, contributing to strengthening oral health services at the state level.

B. WEEKLY TRAINING SESSION ON COMMUNICATION IN ORGANISATION:

A weekly training session on “Communication in Organisation” was conducted by Dr. Deepak on 07/02/2026. The session focused on enhancing effective communication skills within the workplace, with emphasis on clarity, active listening, teamwork, and professional interaction. Key aspects such as barriers to communication, methods to overcome them, and the importance of both verbal and non-verbal communication in a healthcare setup were discussed in detail. Participants actively engaged in discussions and shared their experiences, making the session interactive and insightful. The knowledge gained from the session is expected to improve coordination, patient interaction, and overall efficiency in organizational functioning.

C. WEEKLY TRAINING SESSION ON ORAL HEALTH AND GENERAL HEALTH LINKAGE:

A weekly training session on “Oral Health and General Health Linkage” was conducted by Dr. Shipra on 21/02/2026. The session highlighted the interrelationship between oral health and systemic health, emphasizing how poor oral hygiene can contribute to various

systemic conditions such as cardiovascular diseases, diabetes, and adverse pregnancy outcomes. Key topics included the importance of early diagnosis, preventive care, and the role of dental professionals in promoting overall health. Participants actively engaged in discussions, enhancing their understanding of integrated healthcare approaches. The session proved to be informative and will aid in improving patient awareness and comprehensive healthcare delivery.

D. WEEKLY TRAINING SESSION ON HOW DEPRESSION CAN AFFECT WORK PERFORMANCE:

All the Dental Surgeons along with the Consultants attended a State Level Training on “Tobacco Cessation for Dental Professionals” in collaboration with the National Oral Health Programme (NOHP), Delhi, on 23/02/2026. The training was organized by the National Resource Centre for Oral Health and Tobacco Cessation (NRC-OH-TC) at Maulana Azad Institute of Dental Sciences. The session focused on the role of dental professionals in tobacco cessation, counselling techniques, and implementation of

tobacco control strategies in clinical practice. Participants gained valuable insights into patient motivation, behavioral interventions, and integration of cessation services into routine dental care, thereby strengthening their capacity to contribute effectively towards tobacco control initiatives.

E. ONE DAY TRAINING WORKSHOP OF STAKEHOLDERS ON HARMFUL EFFECTS OF TOBACCO & TOBACCO CONTROL LAWS UNDER NTCP AT DSHM:

A one-day training workshop for stakeholders on “Harmful Effects of Tobacco and Tobacco Control Laws under the National Tobacco Control Programme (NTCP)” was conducted at DSHM

on 26/02/2026 by Dr. Swati. The workshop focused on creating awareness about the adverse health effects of tobacco use and the legal provisions under tobacco control laws, including

enforcement and compliance aspects. Various stakeholders participated actively, engaging in discussions on implementation challenges and strategies to strengthen tobacco control measures. The session enhanced understanding of policy frameworks and reinforced the role of stakeholders in promoting a tobacco-free environment.

5. Monitoring & Evaluation of Mobile Dental Clinic Project

A. Digitalized Feedback Form

Monitoring and evaluation (M&E) are critical components of the Mobile Dental Clinic Project to ensure its effectiveness, efficiency, and continuous improvement. The M&E framework of the project focuses on assessing service quality, patient satisfaction, and the overall impact of dental outreach activities. In a recent innovation aimed at strengthening the evaluation process, the Consultant, Dr. Swati Jain, to systematically capture patient responses and assess the project's outcomes more accurately and efficiently, developed a Digital Feedback Form.

To facilitate easy access, a QR code was generated, allowing patients to conveniently scan and fill the digital form using their smartphones immediately after receiving treatment. This innovation has modernized the feedback collection process by replacing paper-based forms, reducing manual errors, and ensure real time data collection and analysis. The digital feedback system became operational on 21st April 2025, marking a significant step forward in patient engagement and project assessment. In the month of February 2026, a total of 126 digital feedback forms were successfully filled out by patients reflecting encouraging participation and acceptance of the new system. The

collected feedback is currently being analysed to derive insights into patient satisfaction, service quality, and areas needing improvement. This data-driven approach will significantly contribute to enhancing service delivery and strategic planning for future mobile dental camps.

Number of Feedback Forms collected for the month of FEBRUARY'26- 126

B. Field Visits by Consultants

To ensure optimum utilization of resources and improved patient outcomes, the Consultants of the Mobile Dental Clinic Project conduct regular field visits. These visits help in closely monitoring the on-ground implementation, identifying challenges and gaps in service delivery, and facilitating timely corrective measures. This proactive approach ensures continuous improvement in the quality and effectiveness of dental care services provided through the project.

The Following field visits were conducted:

Date of Field Visit	Location	Field Visit By
02/02/2026 & 03/02/2026	DGD DAKSHINPURI	Dr. Divyangi Goel
12/02/2026	SUPREME COURT	Dr. Swati Jain
19/02/2026	DGD KALYANVAS	Dr. Divyangi Goel
