MOBILE DENTAL CLINIC PROJECT

Oral health is a fundamental aspect of overall well-being, yet it often remains overlooked in public health discussions. This neglect can lead to significant disparities in health outcomes, particularly among marginalized communities who face barriers such as financial constraints, lack of awareness, and limited access to dental care services. Oral health outreach programs are essential in addressing these issues by providing

education, preventive care, and early treatment options to underserved populations.

These programs play a crucial role in reducing health disparities by promoting awareness and access to dental care, which can significantly lower the incidence of oral diseases. They also contribute to improving overall health outcomes, as poor oral health is linked to various systemic conditions like cardiovascular disease and diabetes. Furthermore, outreach initiatives enhance the quality of life for individuals by alleviating pain and social stigma associated with oral diseases

Keeping in view of the above facts; Maulana Azad Institute of Health Sciences under GNCT, Delhi initiated Mobile Dental Clinic Project under the umbrella of NHM/DSHM to provide Primary, Preventive, Promotive and Curative oral/ dental health care to underserved areas of NCT, Delhi on 1st May, 2014. It is the “First of its Kind” project in India for Dental Outreach services. The Program provides Dental Screening and treatment services, Dental Health Education and Capacity Building activities along with continuous quality assessment along with research.

The Six specially designed Mobile Dental Clinics cater to underserved population of Delhi. The Project aims to achieve the goals of the “Oral Health for All” by improving the access to Primary Oral Health Services. Further, the Project attempts to integrate the existing Health Care delivery services with the dental/oral services through an integrated need based dental care strategy. The Project has gradually evolved into various sub-components/ sub-initiatives targeting different special groups.

The various sub-initiatives are:

1. Project NEEV: School Oral Health Care Program
2. Project ASHA HUMARI MUSKAAN: Maternal Oral healthcare Program
3. Project AMMA: Comprehensive Oral health care for Elderly
4. Project COPS: Community Oral Precancer Screening and Tobacco Cessation Services
5. Oral Healthcare for Persons with Disabilities.
6. Oral health Education and Awareness Campaigns

PROJECT'S OUTREACH

The Project is providing dental care services in all 11 districts of GNCT of Delhi.

SCOPE OF SERVICES

The Mobile Dental Teams are catering to various areas/districts of Delhi in a scheduled fashion for 05 days in a week (Monday to Friday from 09.30 am to 02.00 pm). For optimum utilization of the Project and patient care; the teams work in coordination currently with the following areas:

- **Delhi Govt. Dispensaries**
- **Schools under Department of Education, GNCT of Delhi**
- **Capacity Building Programs in collaboration with District ASHA Coordinators in all Districts.**
- **Senior Citizen Recreational Clubs under Department of Social Welfare and Social Justice, GNCT of Delhi.**

These collaborative efforts are done to delivery of Primary, Preventive and Secondary level of dental care services to all vulnerable groups as well as communities across Delhi.

The range of treatment services provided includes:

1. **Dental Screening**
2. **Dental restorations/tooth fillings**
3. **Oral Prophylaxis/teeth cleaning**
4. **Tooth Extraction**
5. **Root Canal Treatment**
6. **Dental Prosthetic treatments (Partial and Complete Dentures)**
7. **Tobacco cessation counselling**
8. **Oral Precancerous /Potentially malignant lesion screening**
9. **Preventive Treatment services like pit and fissure sealant applications, fluoride varnishes etc.**
10. **Medication (in liaison with dispensaries) & Referral for tertiary care**

The teams from Mobile Dental Clinic Project visit the locations for five days a week on rotational basis from 9:30 A.M. to 2 P.M.

- Further, the Vans regularly visit Delhi Govt. Schools as per the schedule for Project NEEV.

For the month of June 2025 services of Mobile Dental Clinics were provided to following locations on rotational basis: TOTAL LOCATIONS SERVED:10, 04 DISTRICTS

Cluster	District	Dispensary Location	Distance from MAIDS
Cluster I	West Delhi	DGD Tilak Vihar	21 km
		Mohan Garden	24.2 Km
		Ranhola	22.6 Km
		Jai Vihar	41.9 Km
		Hatsal Village	23.9 Km
Cluster II	East	DGD Vasundhara Enclave	12.3 km
		DGD Mayur Vihar Phase 3Dispensary	17.8 km
Cluster III	Shahdara	DGD Seelampur	11.2 Km
Cluster VI	Central	DGD Gulabi Bagh	8.4 Km
		Burari Hospital	17.7. Km

							Mr. Vikash Bharti	Driver		

Also all teams to follow the **directions as under:**

1. For Van No. 4 DL1LAN4106 (Hatsal Road, Uttam Nagar/ West District Location1): The dental team shall directly report to the designated location at 09:00 AM and conclude the day's work at 04:00 PM and leave from there and report to the Institute every Saturday. All replenishment of consumable, maintenance and equipment related work needs to be coordinated accordingly.
2. For DGD Mayur Vihar Phase 3 & DGD Vasundhara Enclave: The dental teams shall work from 08:00 AM to 02:00 PM, reporting directly to the respective dispensaries. Additionally, the teams shall report to MAIDS every Wednesday (post-dispensary work i.e. 08:00AM to 02:00PM) and every Saturday for documentation and coordination of Program related work.
3. The teams reporting directly to the locations shall submit daily geo-tagged photographs upon arrival and departure to ensure time compliance.
4. The Medical Officers In-Charge in Delhi Govt. Dispensary Mayur Vihar Phase 3 and Delhi Govt. Dispensary Vasundhara Enclave shall also maintain and share the attendance records of the posted staff for transparency and record-keeping on monthly basis. The request letter shall also be sent informing them about this deputation.
5. All staff postings will continue on a rotation basis, to ensure equal distribution of workload and sustained engagement in all areas.
6. All Mobile Dental Clinics will make an effort to identify one Delhi Govt. School and conduct all activities related to Project "NEEV"

Dr. *[Signature]*
 Medical Officer in Charge (M.O.I.C.)
 Mobile Dental Clinic Project
 Maulana Azad Institute of Dental Sciences

All other mandates of Mobile Dental Clinic Project like "Project AMMA", "Project ASHA HUMARI MUSKAAN", Project COPS" and "Health Awareness Campaigns" will be conducted accordingly in the areas presently working as well as any change will be intimated timely.

The allotted teams should ensure the uninterrupted delivery of dental health services to the community as per the guidelines of the Mobile Dental Clinic Project. All Incharges are directed to facilitate the proper induction of posted staff and report daily operational status to the Consultants.

This is issued with the prior approval of the Competent Authority.

Vikrant Mohanty 11/06/2025

2. PROJECT AMMA: COMPREHENSIVE ORAL HEALTHCARE FOR ELDERLY

Just write about India and its ageing population and remove all superscripts taken from other documents.

According to Population Census 2011 there are nearly 104 million elderly persons (aged 60 years or above) in India; 53 million females and 51 million males. 5.9% of the population of Delhi comprises of citizens aged 60+. The projections indicate that the number of 60+ in Delhi will increase to 24.24 Lakhs in 2026. Continuous increase in life expectancy means that more people are now living longer.

Huge burden of Oral Diseases among Geriatric Population

To cater to the demand of high unmet health needs of geriatric population the concept of Geriatric day/Senior Citizen OPD Day is already existent in Delhi Govt. Dispensaries and Hospitals. However, oral health often remains neglected and an under-served realm. Almost 20% of the patients reporting to the OPD of Mobile Dental Clinics belong to geriatric population such that on an average 450 to 500 patients per month seek dental care in Mobile dental vans. Almost 39% of the patients diagnosed with dental caries and 33% of the patients suffering from gingival/periodontal diseases belong to geriatric population clearly indicating high burden of

oral diseases amongst this special group. Almost 14 % of the geriatric population suffer from edentulousness. This not only affects their general health but also affects the quality of life in general. A considerable number of geriatric populations have limited knowledge of the cause and prevention of oral disease as well.

Providing primary and secondary level of dental care to the geriatric population through a Comprehensive oral health care Program for Elderly s vital for a country like India which has a significant proportion of elderly population. Hence, considering the huge unmet dental need of the elderly population of GNCTD; the Mobile Dental Clinic Project has initiated **PROJECT “AMMA: COMPREHENSIVE ORAL HEALTHCARE PROGRAM FOR THE ELDERLY.”** The program has been initiated with collaboration with Department of Social Welfare & Security which supervises old age homes and Senior Citizen’s Recreation Centres under GNCTD for further coordination and organizing various activities. The Project has expanded its horizon by initiating Free Denture delivery services to the patients of Project AMMA. November 2024 marks the launch of an innovative initiative under Project AMMA of Mobile Dental Clinic Project: “Free Denture Delivery”.

Project Amma’s activities in June 2025:

The Project has expanded its horizon by initiating Free Denture delivery services to the patients of Project AMMA. November 2024 marks the launch of an innovative initiative under Project AMMA of Mobile Dental Clinic Project: “Free Denture Delivery”.

Details of Denture work -

1. Total RPD Initiated- 11 (6 upper and 5 lower)
2. Total RPD Delivered- 3 (2 upper and 1 lower)
3. Total CD initiated- 5 (2 upper and 3 Lower)
4. Total CD Delivered- 4 (2 upper and 2 lower)

3. HEALTH PROMOTIONAL & CAPACITY BUILDING ACTIVITIES

1. Weekly Training Sessions for Mobile Dental Clinic Project Staff

As part of the continuous professional development of the doctors involved in the Mobile Dental Clinic Project, the following training sessions were conducted in June, 2025:

1. IEC Development by Dr. Shipra Arora
2. Patient Time Management by Dr. Deepak Verma

4. International Yoga Day Observed by Mobile Dental Clinic Project Team

The team of the Mobile Dental Clinic Project enthusiastically observed International Yoga Day on 21st June 2025. All staff members participated in a morning yoga session. The session included basic stretching exercises, breathing techniques, and relaxation practices aimed at promoting physical and mental well-being. The team reflected on the importance of incorporating yoga into daily life to reduce stress, enhance flexibility, and improve overall health. The activity concluded with a group discussion on adopting a healthy lifestyle and motivating patients towards holistic health, aligning with the project's commitment to preventive and promotive health care

5. Monitoring & Evaluation of Mobile Dental Clinic ProjectA. Digitalized Feedback Form

Monitoring and evaluation (M&E) are critical components of the Mobile Dental Clinic Project to ensure its effectiveness, efficiency, and continuous improvement. The M&E framework of the project focuses on assessing service quality, patient satisfaction, and the overall impact of dental outreach activities. In a recent innovation aimed at strengthening the evaluation process, the Consultant, Dr. Swati Jain, to systematically capture patient responses and assess the project's outcomes more accurately and efficiently, developed a Digital Feedback Form.

To facilitate easy access, a QR code was generated, allowing patients to conveniently scan and fill the digital form using their smartphones immediately

after receiving treatment. This innovation has modernized the feedback collection process by replacing paper-based forms, reducing manual errors, and ensuring real time data collection and analysis. The digital feedback system became operational on 21st April 2025, marking a significant step forward in patient engagement and project assessment. In the month of June 2025, a total of 286 digital feedback forms were successfully filled out by patients reflecting encouraging participation and acceptance of the new system. The collected feedback is currently being analyzed to derive insights into patient satisfaction, service quality, and areas needing improvement. This data-driven approach will significantly contribute to enhancing service delivery and strategic planning for future mobile dental camps.

B. Field Visits by Consultants

To ensure optimum utilization of resources and improved patient outcomes, the Consultants of the Mobile Dental Clinic Project conduct regular field visits. These visits help in closely monitoring the on-ground implementation, identifying challenges and gaps in service delivery, and facilitating timely corrective measures. This proactive approach ensures continuous improvement in the quality and effectiveness of dental care services provided through the project. Following field visits were conducted:

Date of Field Visit	Location	Field Visit By
03/06/2025	National Law University, Dwarka	Dr. Swati Jain
04/06/2025	DGD Mayur Vihar Phase 3	Dr. Swati Jain
16/06/2025	DGD Gulabi Bagh	Dr. Swati Jain Dr. Divyangi Goel
18/06/2025	Burari Hospital	Dr. Swati Jain Dr. Divyangi Goel
23/06/2025	DGD Vasundhara Enclave	Dr. Swati Jain
24/06/2025	DGD Kondli	Dr. Divyangi Goel
